WISLACODE SOLUTIONS

is a fintech-centric software development partner with 10+ years of experience building engaging mobile and web apps

Our agile teams specialize in helping banks, leasing companies, and other financial services organizations digitize processes and improve customer interactions – without the heavy burden of legacy infrastructure overhauls.

200+
Experts

Warsaw, Poland

Challenges we solve

01. Migration from legacy systems to a modern solution

02. Complex payment integrations

03. Lengthy manual processes

04. Developing a strategic and technical roadmap

05. Optimizing the team to reduce development costs

06. Building a scalable architecture for future growth

07. Expanding the team and replacing outdated vendors

08. Avoiding insecure vendor and developer lock-in

Core Expertise

Omnichannel Finance Apps

End-to-End App Development
Native iOS/Android/cross-platform Mobile apps and Superapps

Core Banking Integrations
Seamless linking with existing systems to ensure data consistency and secure transactions

High-Volume Transaction Support
Architectures built to handle millions of daily logins and transactions

Compliance & Regulatory

Certifications & Security
ISO 27001 processes, DORA, PCI DSS alignment, OWASP regular code audits.

Rapid MVP Launch

Interactive Prototype in 1 Month
A prototype with key user scenarios for fast feedback and refinement

Real-World Hypothesis Testing
MVP launch in 4 months to validate demand with minimal investment

Scalable Architecture
Built for easy expansion into a full-fledged product

Legacy System Modernization

Digital Transformation Roadmaps
Holistic strategies for long-term modernization and seamless digital growth.

Performance Optimization & Scalability
Boosting efficiency, reducing technical debt, and enabling smooth scaling.

SuperApp M-Banking

The first superapp on the country market
in Eastern Europe

Challenge

The bank planned to create a superapp that would combine mobile banking for individuals and entrepreneurs. It should also be a fully digital bank with online customers.
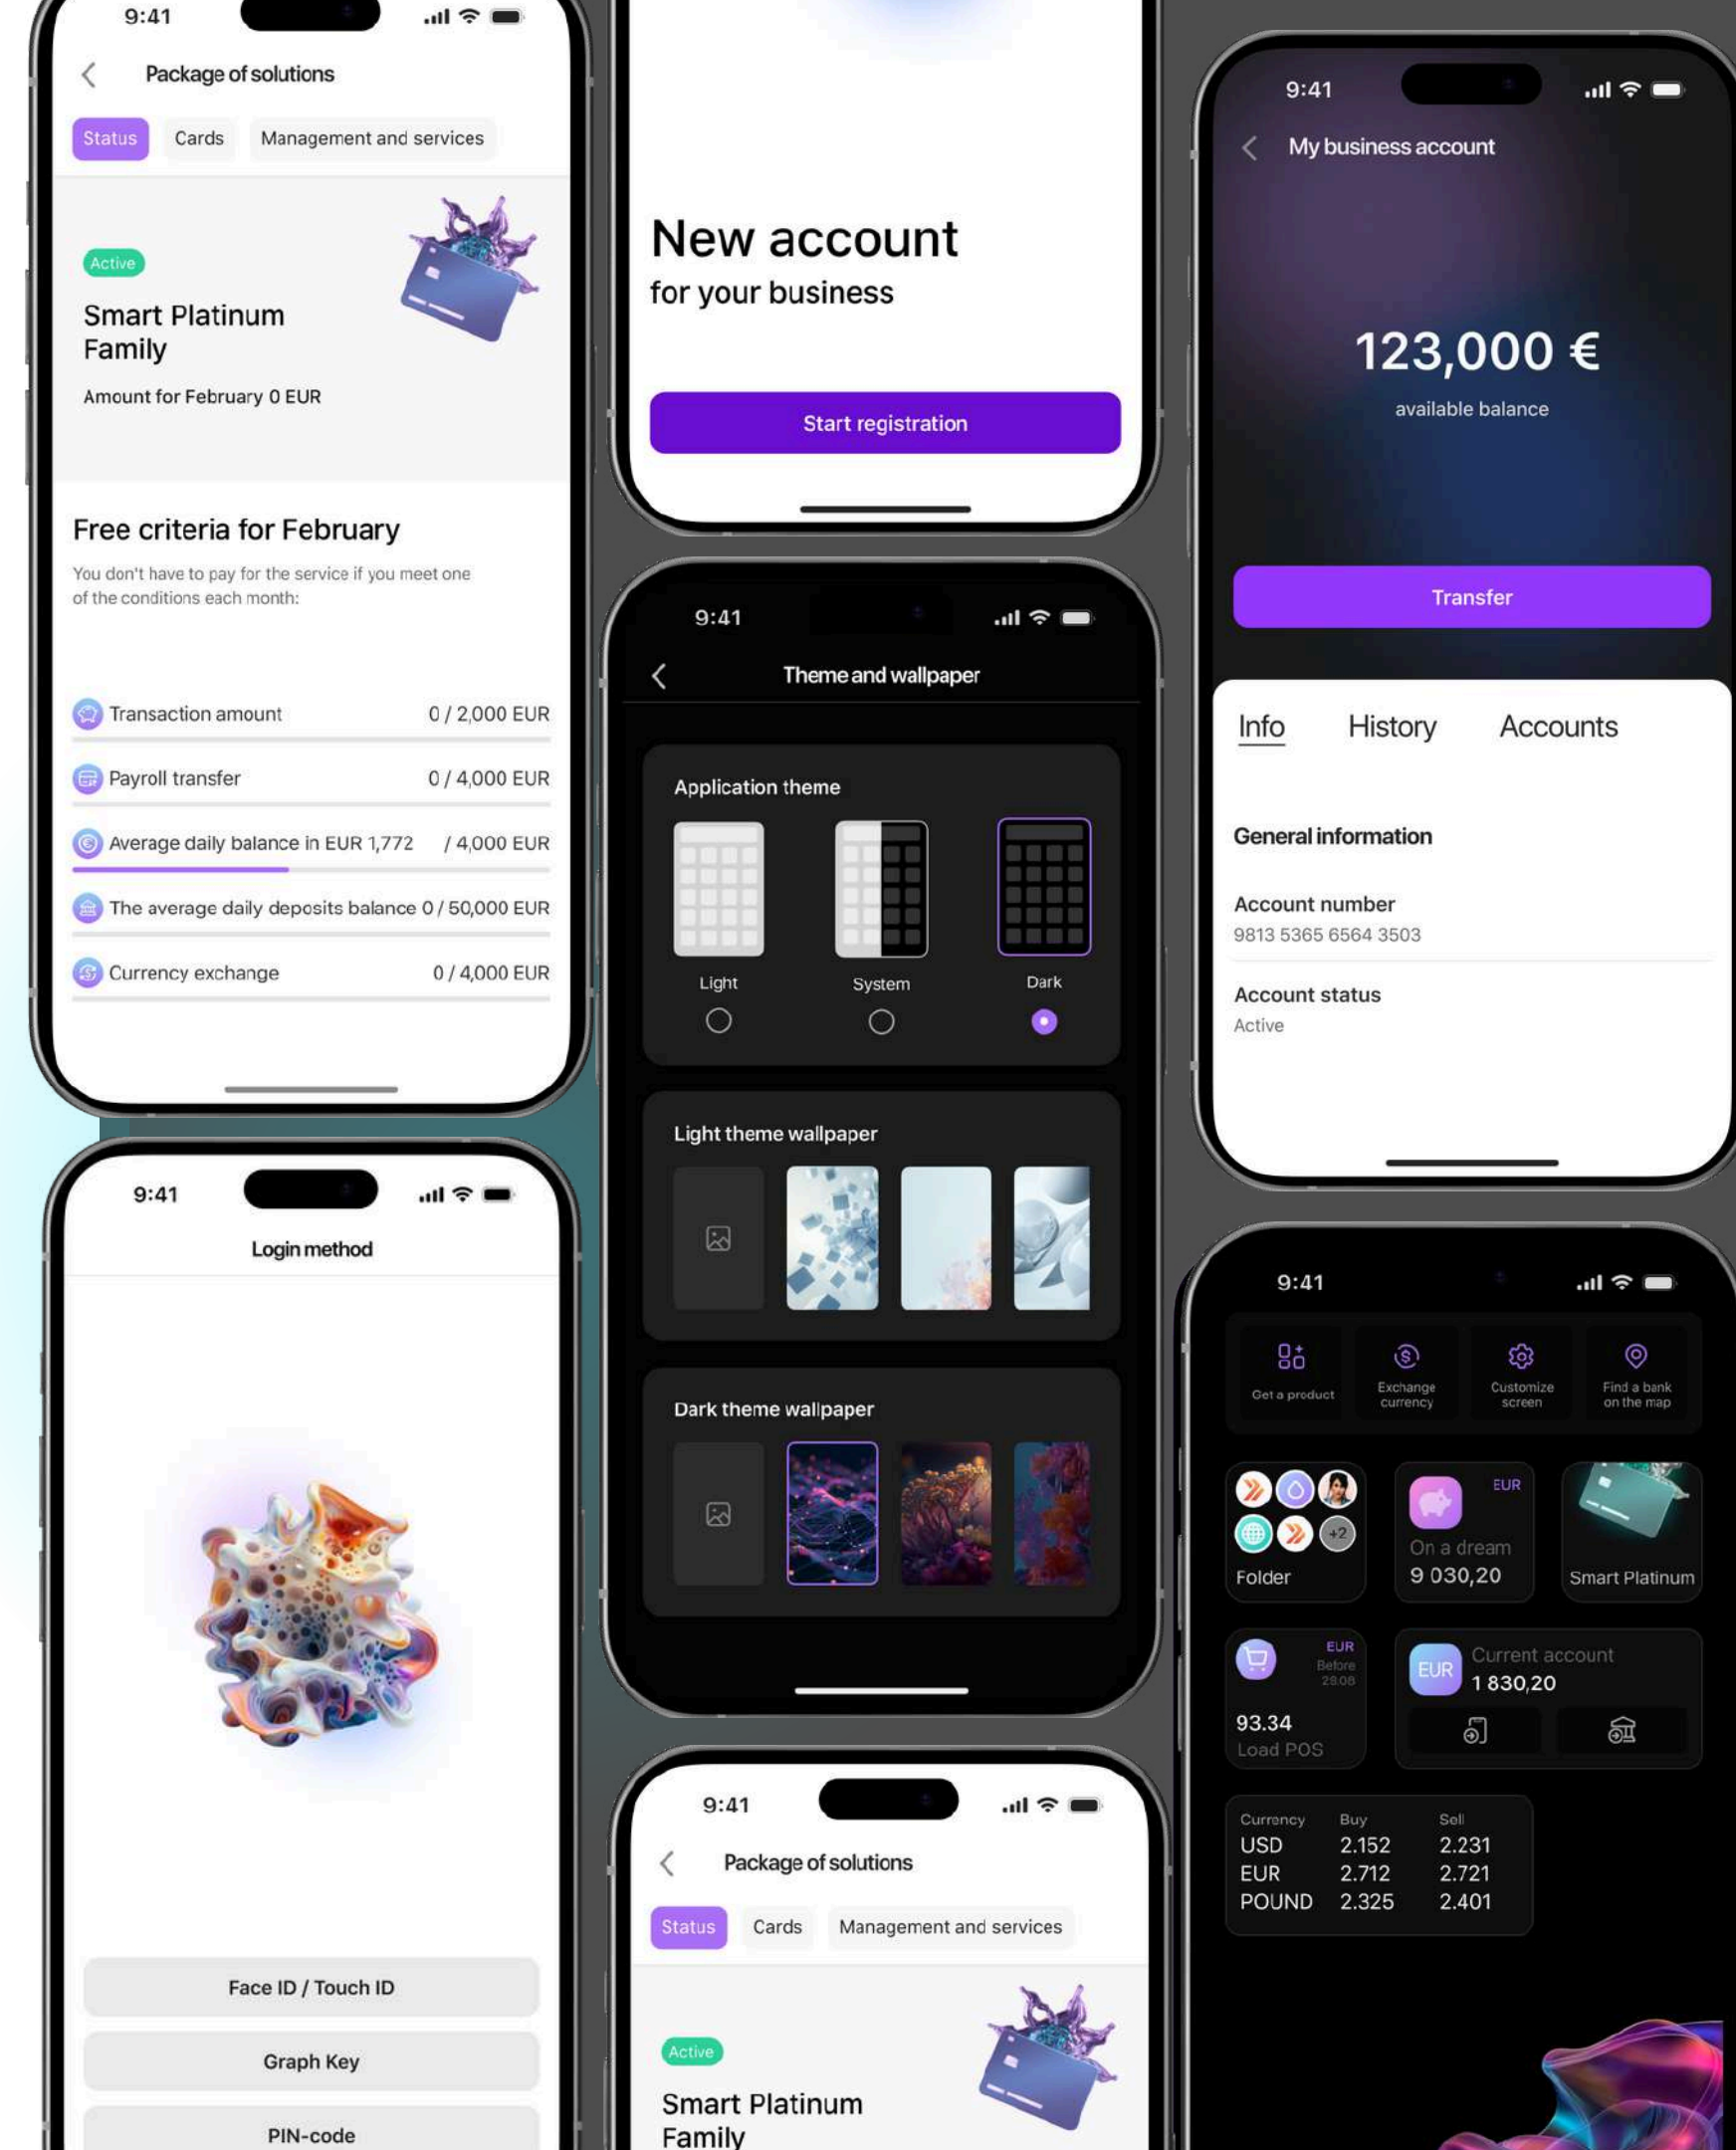

Solution

Our cross-functional team, including developers, analysts, testers, and managers, built the application from the ground up and continued its development post-launch. Product release **9 months** after development kickoff.

Result

Best Digital Bank according to **Global Finance** with **1+ million installations**

Online lending volume surged **150x in a year,** making the bank the country's leader.

Bank + Mobile Account Integration

A unified ecosystem where banking and mobile services come together

The super app enables users to top up their balance, manage services, and switch plans — all in one place.
By integrating their platforms, the bank and mobile operator successfully merged their customer bases.

Synergy between the bank and telecom operator within the SuperApp drove a substantial increase in *New-to-Bank customers.*

User financial transactions *increased eightfold* in two years, driven by higher engagement.

Business Accounts in the Super App

All in one place
Previously, entrepreneurs used a separate banking app. Now, the super app integrates both personal and business accounts in a single solution.
Users can easily access statements, invoices, pay taxes, and open foreign currency accounts — all in one place.

Result

8× Growth in Financial Transactions driven by increased user engagement.

New account
for your business

Start registration

Personalized Settings

Customers can now customize their interface to fit their preferences

Challenge

They can pin key features, switch between light and dark modes, change the background, notification sounds, and even adjust the communication style—formal, neutral, or friendly.
We balanced rich functionality with high performance, ensuring instant setting changes within the app.

Result

Monthly active users (MAU) grew from 45% to 67% in two years.

Inhouse Competence Centers

Top-skill experts in mobile development, cross-platform/PWA, frontend, backend, analytics, testing and design

Flexibility in Everything

Need a quick launch or rapid team reassembly to meet new business demands? We're experts at it.

Post-delivery Support

Ensure the team's participation in the finalization of the solution and elimination of critical bugs

Development Resources

BACKEND

- Development: Java, SpringBoot, SpringCloud, SpringData, Hibernate, .NET Framework, .NET Core, ASP.NET MVC
- SQL stores: PostgreSQL, MySQL,
- NoSQL stores: MongoDB, ElasticSearch, Cassandra
- ODS: Hazelcast, Redis
- Message Brokers: Kafka, RabbitMQ

CORPORATE DATA WAREHOUSES

- Storage: Oracle, Hadoop
- ETL: Informatica
- BI: Cognos, Tableau
- CDC: Oracle GoldenGate

FRONTEND

- Development: Typescript, ReactJS, Redux (toolkit, saga), NextJS
- Library: RTQ, axios, cypress, jest

INFRASTRUCTURE, CI/CD

- Docker
- Mesos/Marathon, Kubernetes
- Jenkins
- Ansible

MOBILE

- Android: Java, Kotlin
- iOS: Swift

CROSSPLATFORM|PWA

- JavaScript, TypeScript
- React, Redux
- WebAPIs

TESTING

- Zephyr, TestLink, Allure, Quase
- JUnit, Kotest, Mohito
- XCTest, Sourcery
- Selenium (Selenoid, Grid), Cucumber

ANALYTICS

- UML, BPMN
- REST, SOAP
- Axure

WislaCode customers confirm

Loucas Charalambous
payabl

We needed an Android SDK developed under a tight timeline, and their team delivered a flexible, user-friendly solution that integrated seamlessly into our ecosystem.

Mikhail Krasnov
Executive Chairman at Verysell Group

The WislaCode team delivered on time and with outstanding quality. I want to mention the team's transparency while running the project - everything was trackable, visible and manageable.

Aleksei Malenkin
$lana (Monetech)

WislaCode specialists quickly synchronised and worked with the second team involved in developing our solution. As a result, having started development from scratch, we came to the expected result quickly. The first users went to the application after 5 months.

Yurii Lozinskyi
Head of Applied AI Lab

This was a very task-heavy project. However, by the end of WislaCode, we were left with a detailed roadmap consisting of clear milestones — able to be converted into tangible KPIs. Integrating this structured result ensured that the more complex and uncertain goals were converted into 30% ROI.
